Magic Quadrant for BI Platforms

As of February 2013

(From "Magic Quadrant for Business Intelligence and Analytics Platforms," 5 February 2013)

Gazillion Products are available in the market

Extensible across Technologies, Platforms, Devices

Business people can generate complex reports with the pre-defined metrics

Report Generation at ease with no need for technical understanding

Reports available at the cost of a dime

A Relevant BI solution to get actionable insights quickly

Market offerings

Generic not my problem specific.

Why should I pay for what I am not going to use? - I can pay for the feature when I need it

User levels not sufficient but can's ask more as it would shoot up the costs

I don't have the bandwidth to understand the "simple" implementation instructions

I need advise to represent things better and insightful but how?

"It costs a dime" but I need much more than that!

Advantage geniSIGHTS

Exactly your Product X ROI Customizable as you need it Enhanced with advanced analytics Extensible in cloud & Big Data environment Dedicated team building insightful solution

If seeing is believing, see how geniSIGHTS evolved...
